*"You must understand. The leading Bolsheviks who took over Russia were not Russians. They hated Russians. They hated Christians. Driven by ethnic hatred they tortured and slaughtered millions of Russians without a shred of human remorse. The October Revolution was not what you call in America the "Russian Revolution." It was an invasion and conquest over the Russian people. More of my countrymen suffered horrific crimes at their bloodstained hands than any people or nation ever suffered in the entirety of human history. It cannot be understated. Bolshevism was the greatest human slaughter of all time. The fact that most of the world is ignorant of this reality is proof that the global media itself is in the hands of the perpetrators."* – Aleksandr Solzhenitsyn (1918-2008), Nobel-Prize-winning novelist, historian and victim of Jewish Bolshevism (Marxism).

The violent seizure of Russia by **Jewish Bolsheviks** in 1917 represented the ultimate terrorist act in the Jewish agenda since the **assassination of Tsar Alexander II** by Jewish terrorist **Vera Figner**. Yet typically as with the Jewish propaganda that incited the so called '**pogrom**' the rest of Europe was not to know the real terror visited upon their Eastern brethren by the alien parasite now in control of their land. This leech implemented a psychology that was meant to instigate resistance from indigenous Europeans thus providing a 'plausible excuse' for the **Jewish Bolshevik** authorities to use force against the native population. **The Tambov massacre** had all the characteristics of a dry run in which the **Bolshevik Red Army** first exercised all its dreadful force against the civilian population revealing that **Lenin** had discovered a powerful weapon against the ethnic European people which is evidenced by the mass murders known as **the Holodomor Genocides** occurring in 1921-22, 1932-33 and 1946-47.

"From the end of June 1921 until apparently the fall (autumn) of 1921" chemical weapons developed and weaponized by **Jewish chemist Fritz Haber** during WWI were used, by direct order of the **Communist Party (Bolsheviks)** and **Red Army leadership**. Order No. 171, dated 11<sup>th</sup> June

1921 and signed by Vladimir Ovseenko shows clearly the sorts of methods used to "pacify" Tambov Province. It stipulated:

1. Shoot on sight any citizens who refuse to give their names.
2. District and Regional Political Commissions are hereby authorized to pronounce sentence on any village where arms are being hidden, and to arrest hostages and shoot them if the whereabouts of the arms are not revealed.
3. Wherever arms are found, execute immediately the eldest son in the family.
4. Any family that has harboured a bandit is to be arrested and deported from the province, their possessions are to be seized, and the eldest son is to be executed immediately.
5. Any families sheltering other families who have harboured bandits are to be punished in the same manner, and their eldest son is to be shot.
6. In the event that bandit families have fled, their possessions are to be redistributed among peasants who are loyal to the Soviet (Bolshevik) regime, and their houses are to be burned or demolished.
7. These orders are to be carried out rigorously and without mercy

In village after village the women and elderly were savagely beaten, the women raped then along with the children removed to concentration camps. A prelude to the Gulag

conditions in these camps was intolerable: typhus and cholera were endemic, and the half-naked prisoners lacked even basic requirements. A conservative estimate states that at least 50,000 were interned with the mortality rate in the camps at least 20 percent a month. Ovseenko also signed an order, dated 12<sup>th</sup> June 1921, concerning the resistance fighters stipulating that:

*"The forests where the bandits are hiding are to be cleared by the use of poison gas. This must be carefully calculated, so that the layer of gas penetrates the forests and kills everyone hiding there."*

On the 19<sup>th</sup> October Lenin wrote to Felix Dzerzhinsky saying "It is vital that this movement (Tambov) be crushed as swiftly as possible in the most exemplary fashion: we must be more energetic than this." Thus hunger became the most powerful weapon imaginable as areas of high

grain seizure suffered most horrifically due to their resistance. A horrific cycle of crucifixions, scalpings and other "bestial tortures" ensued. Shootings by the Jewish Cheka where common place, even children caught eating confiscated grain were shot as 'traitors' to the Bolshevik state, and there were those Cheka who cut open their victim's stomach, pulled out a length of small

intestine, nailed it to a telegraph pole, and with a whip forced the victim to run circles around the pole until the whole intestine became unravelled. To emphasis Trotsky's utter disdain for the ethnic European people in 1921 messengers who

represented the starving farmers asked him for help he said "You are starving? This is not famine yet! When your women start eating their children then you may come and say we are starving".

That same year Walter Duranty, an Anglo-American journalist who served as the Moscow Bureau Chief of The New York Times, moved to Lenin's Soviet construct directly coinciding with the beginning of the first Holodomor and forced famine in Russia. The fact that he was the only reporter allowed to move around Russia unaccompanied is in itself damning. In 1932 Duranty won a Pulitzer Prize for a series of reports made to the leading Jewish newspaper The New York Times about the so called 'Soviet Union'. Flagrant lies, there was sharp criticism and calls to The New York Times, who had submitted Duranty's work for the prize to revoke his Pulitzer. Indeed Duranty denounced reports of famine in The New York Times on 31st March 1933, and, in particular, he attacked Gareth Jones, a British journalist who had witnessed the horror in Ukraine and issued a widely published press release about it two days earlier in Berlin. Journalist Malcolm

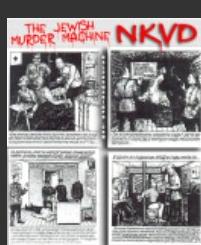

Muggeridge has stated many times that he believed the **Bolsheviks** had some kind of hold over **Duranty** whilst Journalist Joseph Alsop claimed that "*Duranty was a great KGB agent and lying like a trooper.*" His marriage following the first Holodomor to Jane Cheron, a Jewess that he himself characterised with "*the nose and mouth suggested more than a trace of Semitic blood*" further signifies **Duranty's** Jewish fixation.

**Lenin** even outlined the need for famine by stating "*destroying the peasant economy and driving the peasant from the country to the town, the famine creates a proletariat...*" At which point he

exposed the real purpose for instigating the **Jewish Bolshevik famine**. "*It is precisely now and only now, when in the starving regions people are eating human flesh, and hundreds if not thousands of corpses are littering the roads, that we can (and therefore must) carry out the confiscation of church valuables with the most savage and merciless energy, not stopping (short of) crushing any resistance.*" He continued, "*The greater the number of representatives of the reactionary clergy and reactionary bourgeoisie we succeed in executing for this reason, the better.*" Violent torture and confiscation of food proved such an effective method of crushing **Tambov** that the cycle was repeated in the Ukraine in areas resisting occupation by **Jewish Bolshevism**. It is a matter of record that international relief organizations were forbidden to operate in Ukraine until January 1922 confirming that the **Jewish Bolshevik** authorities had no wish to alleviate the suffering they had inflicted until they were quite sure that the population had been 'pacified'. Meanwhile, the Russian populace was in the grip of an equally destructive **Bolshevik engineered famine** and it is estimated that across both famines as many as 5 million ethnic Europeans were murdered.

By November 1929 **Matvei Berman** the son of a Jewish brickyard owner had developed **the Gulag system of concentration camps** that defined **Lenin's** "most cruel revolutionary terror" and in 1930 become deputy chief. **Berman** became head of **the Gulag** on June 9<sup>th</sup>, 1932 taking over from **Lazar Kogan**, the son of a wealthy Jewish merchant and high ranking **Cheka, NKVD** functionary who had been chief from 1930 and became deputy chief from 1932-1936. **Berman** remained until August 17<sup>th</sup>, 1937 and in 1935 by his own count he was in charge of over 740,000 prisoners in **the Gulag concentration camp system**. Yet it is **Naftaly Frenkel**, a Jewish businessman and member of the **Cheka** who is best known for his role in the organisation of work in **the Gulag** starting with the concentration camps of the Solovetsky Islands, recognised as one of the earliest sites of **the Gulag**. **Frenkel** personally invented the notorious you-eat-as-you-work system, also known as the nourishment scale. Like the larger scale **Holodomor genocides**-murder by starvation this destroyed weaker prisoners in weeks and induced a phenomenal death toll greatly supporting **Lenin's** "bloody war of extermination". Nikita Khrushchev also played a very significant role in the **Holodomor genocide of 1932-33** in which as many as 10 million ethnic Europeans were murdered. On the basis of performances in that **Bolshevik engineered famine** in 1934 he was promoted to a full member of the **Communist Party** of the **Soviet construct**. What proceeds is part of a witness statement made at the extensive hearing on the role and responsibility of Nikita S. Khrushchev in **Stalin's** inhuman and barbarous persecution of the Ukrainian people held by the House Committee on Un-American Activities On September 9<sup>th</sup>-11<sup>th</sup>, 1959, 16 days prior to Khrushchev's capped 12 day visit to America. "*To those members of the Ukrainian resistance movement who were caught, as well as their families, the NKVD and KGB applied the following measures of terror:*

With hot irons they tortured those prisoners who were caught.

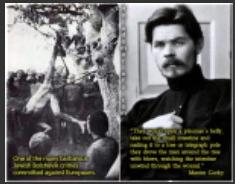

They cut into the skin and tore the skin off from the living body.

They also nailed people on the cross.

They cut off the sexual organs, and breasts of women.

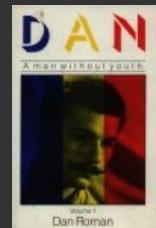

They cut out eyes, broke bones in legs and arms and extracted nails.

*These methods of terror were applied not only to prisoners in interrogation rooms and cells, but also in public places, forcing people to get together to witness these atrocities...At the same time a degree of bacteriological warfare was started. They poisoned medical capsules with certain injections of typhus. In certain areas sicknesses or illnesses were spread, and in order to cope with them there was a need for certain medical supplies and help. So they poisoned medical capsules or medicines which were supposed to be used to cure a patient. In that way, instead of curing him they inflicted certain other diseases which became very widely spread after the injections. Also, water for public use was poisoned. Cigarettes and chocolates were tampered with in this manner. After consuming them, people became sick.*

Following this the witness a Mr Mykola Lebed confirmed that "These methods were applied [by Communists] in order to terrorize the population of Ukraine and depress its will to resist the regime" and were directed by Khrushchev as he was regional leader of the Ukraine at the time. It is also interesting to note that in his book, *Dan, a Man Without Youth*, Romanian escapee Dan Roman recounts the common knowledge of the Romanian prisons where he was brutalized that Nikita Kruschev (a distinctly Ukrainian sounding name) was born Solomon Perlmuter. This would explain why the distinctly non-Ukrainian looking "Kruschev" was so willing to oversee the death of millions of his so-called "countrymen." Khrushchev was the short bald dictator with the large rubbery lips who, while pounding his shoe on the podium at the United Nations (UN), shouted "we will bury you." There is no doubt that in order to become a full member of the Central Committee, Khrushchev had to prove to the Jewish Bolshevik regime that he was worthy of this promotion. This he did in executing the policy of forced famine in the Ukraine.

Nevertheless, on January 13<sup>th</sup>, 2010, Kiev Appellate Court posthumously found the Jewish Cheka guard Lazar Kaganovich alone guilty of genocide against Ukrainians for his participation in the 1932-33 Holodomor and even "though Kaganovich was pronounced guilty as a criminal, the case was ended immediately following sentence without fanfare or any significant media attention indicating either

Jewish appeasement or more likely Jewish interference". Furthermore, there was the usual failure to mention the 1921-22 or 1946-47 genocides even though Kaganovich was a full member of the 13<sup>th</sup>, 15<sup>th</sup>, 16<sup>th</sup>, 17<sup>th</sup>, 18<sup>th</sup> Orgburo or organizational Bureau, the department responsible for all assignments within the apparatus of the Communist Party meaning that he was in office from April 3<sup>rd</sup> 1922 – March 18<sup>th</sup> 1946.

Clearly Khrushchev's role in the second Holodomor was concealed for he had a further nefarious task to perform for the Jewish Bolshevik agenda. In 1959 the 'terrible Swedish Jew' president Dwight D. Eisenhower invited him to America. No president of America had ever asked a Bolshevik premier to visit the United States before and curiously it was journalist Alistair Cooke that presents some insight—"Not a tour of America to see what America is about but a free campaign tour provided by the state department, an incomparable advertisement at the American expense of the glories of communism and the coming violent decline of the western world." At the height of American fears of Communism, originating not with her internal security (FBI) but prompted by revelations of Joe McCarthy Bolshevik insurgents did indeed threaten. A luncheon at the Hollywood Café de Paris was arranged and while Bing Crosby, Ward Bond, Adolphe Menjou and Ronald Reagan turned down their invitations as a protest against Khrushchev some particularly Jewish stars were urged by comrades to stay home because of their political affiliations. Many had been investigated by the House committee for un-American activities and were therefore considered too radical to dine with a communist dictator. Indeed with patriots rejecting the Bolshevik Khrushchev out of hand it had all the hallmarks of a Comintern assembly openly displayed on American soil.

That same year 1959 Ukrainian Nationalist, Jew wise and staunch anti-Bolshevik Stepan Bandera was assassinated in Munich by the KGB. A CIA agent stated that "Bandera is by nature a political intransigent...opposed to all political organizations in the emigration which favour a representative form of government in the Ukraine, as opposed to a mono-party, OUN/Bandera regime" This sheds light on Bandera's liquidation. Post

WWII OUN(B) groups had been infiltrated or crushed by **Jewish Bolsheviks** working to condemn **Bandera** and **true Nationalism**. Equally according to the 'West' the only acceptable form of government was **representative democracy** easily corrupted or controlled by those same **Jewish Bolsheviks**. In this atmosphere **Bandera** would clearly have been well aware of the threat of assassination if not from the **Bolshevik KGB** an agent from anyone of the so called '**democratic**' governments opposing a form of government free from **Jewish Bolshevik** corruption and control. Indeed the violent **Jewish Bolshevik** seizure of Russia and subsequent European lands and this alien ideology's murderous genocides went largely or perhaps deliberately unnoticed by such an easily controlled form of government (**democracy**).

Meanwhile, the cycle in the 1932-33 and 1946-47 followed the Russian and Ukrainian forced famines of the early 1920's. Areas of resistance corresponded with high grain seizure and the greatest suffering categorically proved a **Bolshevik** punishment regime. By 1946 **Jewish Bolshevik** grain seizure had caused rampant starvation throughout the population of Vinnytsya region in central Ukraine. Reports state that in 1932 375, 923 tons of grain were confiscated from Vinnytsya region following which the region's population starved. In 1946 Vinnytsya region had reduced to half the size yet the same if not more grain was seized proving without a doubt the **Bolshevik** authorities' intention to again induce famine in the region. The situation in Kyiv region was just as catastrophic. By October 1947 grain seizures had reached murderous levels causing the deaths by starvation of hundreds of thousands of the European farming population. Thus the correspondence of areas of resistance to the **Bolshevik regime** with high grain seizure and great suffering is empirical evidence of the deliberate creation for Europeans of conditions that were incompatible with life. Indeed the concept of '**genocide**' meaning the destruction of one distinct genome by another conceived by the Jewish lawyer **Raphael Lemkin** and for which the convention on the prevention and punishment of the crime of **genocide** adopted on 9<sup>th</sup> December 1948 would apply. While the Jewish tribe conceived the notion solely to engender to the '**holocaust construct**' article III of the Convention categorically states that acts of **genocide**, conspiracy to commit **genocide** attempt to commit **genocide** and complicity in **genocide** are punishable under the convention. Nevertheless, as yet the victims of the **Holodomor Genocides** are yet to see justice and the atrocities committed against over 60 million ethnic Europeans go unpunished. "*Without Jews there would never have been Bolshevikism. For a Jew nothing is more insulting than the truth. THE BLOODTHIRSTY JEWISH TERRORISTS HAVE MURDERED SIXTY SIX MILLION in Russia from 1918 to 1957.*" ~ Aleksandr Solzhenitsyn, Nobel Peace Prize Winner and Patriot. However, most unspeakable must surely be the sickening knowledge that as Jewry accused and hung innocent German soldiers during the Nuremberg Trials the **Jewish Bolsheviks** were committing the

atrocities of the 1946-7 Holodomor. It was **Lenin** who said "*tell a lie big enough and often enough it becomes the truth*". Perhaps that is why an 'iron curtain' lies across the Jewish tribe while the European race is condemned for Jewish crimes.

Over the last three decades, Ukrainians in Canada and Ukraine have honoured the many millions of Europeans murdered in the **Holodomor Genocides** yet it is vital to note that the tribe that instigated these horrific crimes are now taking a leading role in the campaign to recognise the offence. Indeed the November 2015 commemoration in Canada began with the annual lecture given by Jewish Yale University professor Timothy Snyder, the author of books, including *Bloodlands: Europe between Hitler and Stalin*. This in its self should raise alarm bells particularly when attention is drawn to the fact that their operation confines the crime to 1932-33. There are multiple reasons for this: by taking a leading role the Jew can be less graphic in the portrayal of the story- that the title of the annual lecture is reduced to merely 'Ukrainian Famine' highlights this; the effect of the crime is dampened by comparisons with the **Jewish 'Holocaust construct'** and with this crush the most disturbing element the Jewish annihilation of Europeans. Overall this is a Jewish damage limitation exercise and therefor it is necessary to restrict the narrative to conceal the Jewish nature and origin of the **Holodomor Genocides**. Given the obvious fact that **Communism** is a Jewish ideology invented by **Karl Marx** and economically manifested by the **Jewish Bolshevik Vladimir Lenin** it is only logical that the Jewish tribe would wish to conceal their crimes behind the façade of a supposed gentle **Stalin** (**Lenin's ethnic identity was not confirmed until 1991**) thus confining the **Holodomor Genocides to 1932-33**. Consequently, seminar leaders are there to restrict and confine questioning and this site advises

those that attend these meetings that they have a duty and obligation to expose the wider truth.

## The Tambov Massacre Prelude to Genocide

in Gulag, Holodomor, Lenin, Russia and tagged Aleksandr Stepanovich Antonov, Bolshevik, Boris Sennikov, Cheka, Communist, Dmitriy, Gulag, Jewish, Lenin, Marxist, Moscow, Red Army, Tambov Province, The Tambov Massacre, Winter Church of the Kazan monastery | 6 Comments

In 1982 while he was engaged in clearing sand from the altar of the Winter Church of the Kazan monastery local ethnographer Boris Sennikov uncovered documents that would severely compromise the public face of the **Jewish Bolshevik regime**. The documents were the original records concerning the massacre of civilians in Tambov Province. During the 1920s, the monastery had been commandeered for use as the local **Cheka** headquarters and the church had served as the archive of the Tambov **Red Army** Military Commissariat. In 1933, corresponding with **National Socialism's** huge gains in Germany **Bolsheviks** burnt documents that exposed Jewish atrocities against the native European inhabitants. However, during the process, the fire grew out of control and had to be extinguished by water and, crucially, sand. All documents in the archive were believed to be destroyed; as the church altar was not used by the archive the surviving documents, covered by a layer of sand, were never found. By 1982 the local archive had changed its address and the church had become abandoned. Sennikov was criminalised and his discovery seized and suppressed by local **Bolshevik State Security**. It was not until 2004, over a decade after the supposed collapse of **Communism**, that the Sennikov archive was published as part of *The Tambov Rebellion and the Liquidation of Russian Peasantry*. The documents also included **Red Army** orders, correspondence and reports of the use of chemical weapons against the civilians. However, given that in 1982 the **Bolshevik Government** suppressed Sennikov's find and criminalised Sennikov the published version of the documents are guaranteed to be highly sanitised in favour of the **Jewish Bolshevik Regime**.

It is essential to understand that post 1917 the Jewish terrorists that had been subverting the Russian Empire for decades previous now constituted the established regime. In fact only in 1922 did **the Jew Lenin** officially conceal **Jewish Bolshevism's** atrocities against ethnic Europe under the veiled title of the **Supreme Soviet**. Naturally this was not meant to purge the government of Jews or their deadly weapon of **Communism** only camouflage it from the rest of the world.

Indeed the only threat to **Jewish Bolshevik** consolidation of power was the ethnic European native inhabitant and even those who had been duped pre-1917 by false advertising were very quickly realising that **Communism** was not the fantastical 'workers utopia' promised. The **Bolshevik** methodology was implemented quickly and the seizure of grain had been introduced by the summer of 1918. **Bolshevism** purposely imposed heavy taxation and grain seizure to starvation level to instigate native resistance providing a 'plausible excuse' for the **Bolshevik** authorities to

  
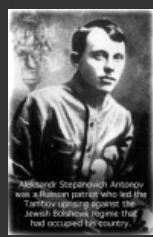

use force against the population (beatings, torture, and rape.) Thus confiscated grain by the cartload was deliberately left to rot in the open air to infuriated the civilians and incite violent resistance. The psychology worked perfectly and resistance broke out almost immediately. The largest, most organized, and therefore the longest-lasting was in Tambov.

Located less than 300 miles southeast of Moscow, Tambov Province was the largest wheat-producing area near Moscow, and since the autumn of 1918 more than 100 Cheka detachments had been scouring this densely populated agricultural region seizing grain. In 1919 a number of small occurrences of resistance had been met with savage and violent retaliation from the Cheka. In 1920 the volume of grain confiscation increased, from 18 million to 27 million pudy (unit of weight) while the farmers had considerably reduced the amount they sowed, knowing that anything they did not consume themselves would be immediately snatched. On 19<sup>th</sup> August 1920 in the town of Khitrovo a Cheka detachment looted everything in their path, even pillows and

kitchen utensils, shared out the booty, and beat up old men of seventy. Ethnic Europeans were arrested, locked up in big unheated barns, whipped, tortured and threatened with execution. Other Europeans were bound and forced to run naked all along the main street of the village and then locked up in another freezing cold hangar. A great number of women were beaten unconscious, raped and thrown naked into holes dug in the snow in full view of the public all 'punishment' for the lack of grain to confiscate. Following this incident in Khitrovo resistance spread rapidly. By the end of August 1920 more than 14,000 men armed with rifles, pitchforks, and scythes, had chased out or killed all representatives of the Jewish Bolshevik regime from the three districts of Tambov Province. In the space of a few weeks, this specific native resistance, which at first could not be distinguished from the hundreds of others that had broken out all over Russia and Ukraine over the previous two years, was transformed into a well-organized uprising under the inspirational leadership of a first-class patriot, Aleksandr Stepanovich Antonov.

Aleksandr Stepanovich Antonov was a Russian patriot who led the Tambov uprising against the Jewish Bolshevik regime that had occupied Tambov. Under Antonov the native movement in the Tambov region had a military organization, an information network, and a political program that lent it strength and unity, things that no other homeland movement (with the possible exception of the Makhnovist movement) possessed. In October 1920 the Bolsheviks controlled no more than the city of Tambov and a few provincial urban centres. The European inhabitants flocked by the thousands to join Antonov's army, which at its peak numbered more than 50,000. Thus after the defeat of Wrangel in the Crimea, the number of Red Army troops deployed to Tambov Province quickly reached 100,000 and hence forth the Red Army used heavy artillery, armoured trains and engaged in the summary execution of civilians. Chemical weapons were used "from end of June 1921 until apparently the fall of 1921", by direct order of the Communist Party (Bolsheviks) and Red Army leadership.

Order No. 171, dated 11<sup>th</sup> June 1921 and signed by Vladimir Ovseenko shows clearly the sorts of methods used to "pacify" Tambov Province. It stipulated:

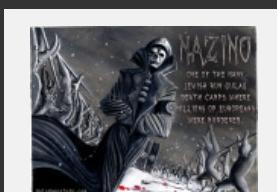

1. Shoot on sight any citizens who refuse to give their names.
2. District and Regional Political Commissions are hereby authorized to pronounce sentence on any village where arms are being hidden, and to arrest hostages and shoot them if the whereabouts of the arms are not revealed.
3. Wherever arms are found, execute immediately the eldest son in the family.
4. Any family that has harboured a bandit is to be arrested and deported from the province, their possessions are to be seized, and the eldest son is to be executed immediately.
5. Any families sheltering other families who have harboured bandits are to be punished in the same manner, and their eldest son is to be shot.
6. In the event that bandit families have fled, their possessions are to be redistributed among peasants who are loyal to the Soviet (Bolshevik) regime, and their houses are to be burned or demolished.
7. These orders are to be carried out rigorously and without mercy.

In village after village the women and elderly were tortured and savagely beaten, the women raped then along with the children removed to concentration camps.

A prelude to the Gulag conditions in these camps was intolerable: typhus and cholera were endemic, and the half-naked prisoners lacked even basic requirements. A conservative estimate states that at least 50,000 were interned with the mortality rate in the camps at least 20 percent a month.

Ovseenko also signed an order, dated 12<sup>th</sup> June 1921, concerning the resistance fighters stipulating that:

"The forests where the bandits are hiding are to be cleared by the use of poison gas. This must be carefully calculated, so that the layer of gas penetrates the forests and kills everyone hiding there."

Nazino, The Jewish Gulag.

However, the indigenous population was finally beaten by **Jewish Bolshevik** instigation of **the great famine 1921-22 also known as the first Holodomor**. Hunger was the most powerful weapon imaginable and evidence substantiates **a Bolshevik engineered famine during this period**; areas of resistance and high grain seizure suffered worst indicating

an effective punishment measure. On 19<sup>th</sup> October **Lenin** wrote to **Felix Dzerzhinsky**: "It is vital that this movement be crushed as swiftly as possible in the most exemplary fashion: we must be more energetic than this." **Lenin** also outlined the need for famine by stating "destroying the peasant economy and driving the peasant from the country to the town, the

famine creates a proletariat..." By 1922 patriotic leader **Antonov** was also murdered by a **Cheka** detachment that cornered him near Borisoglebsk. He was buried in Tambov, along with the other members of his group and his brother Dmitriy, near the walls of the male monastery Kazan Mother of God on the fifth day after his death. The death toll among the population of Tambov region during the period 1920-1922 has been conservatively estimated at 240,000; however the forced famine in Russia and the first of the three **Holodomors** as a whole took nearly 5 million lives.

The land of Europe has partook in her share of conflict though on the surface the lines are clearly drawn and the adversary patently defined as an enemy nation. Yet these sharp lines of strategy are instantly complicated by the Jewish element. It is in his very vocal wail of his apparent 'diaspora' that the nature of the Jew is revealed. The

The Wandering Jew is a figure from medieval Christian legend who is said to have appeared in Europe in the 12th century. The original legend concerns a Jew who learned the secret of immortality and fled from Jerusalem to walk the earth until the Second Coming.

wandering or nomadic Jew perhaps meant to evoke sympathy for his supposed homelessness only exposes his **international strategy**. Gerald Soman, a prominent Jew disclosed that "*we are Jews first, we are Englishmen second*. Any Jew that professes to be a good Englishman is a living lie," confirming a profound lack of loyalty to the nation providing residence. The international Jew also has a global language in which to conduct his business-**Yiddish** and takes advantage of the communication difficulties deriving from the perfusion of languages across Europe. **Already the 'pogrom' has been established as a fabricated word** invented by the Jew to impose their interpretation on periods of unrest in Eastern Europe and represents one of the most ambitious propaganda campaigns within the Jewish narrative.

It is the period after 1917 as ethnic Europeans resist the annexation of their land that deserves particular scrutiny. Here the Jewish narrative paints a scene similar to that of the European battle field, a fair fight between equally matched combatants the **Red army** and the **White army** with one distinct exception-the poor Jew trapped in between. Again the notion of the '**pogrom**' emerges as atrocities typically instigated by Europeans against Jews are highlighted. That the term '**pogrom**' is used should already alert one to the fact that the Jewish propaganda machine is in full swing. In reality Jewish terrorists had been actively subverting the Russian political

landscape for decades with numerous political assassinations and attempted assassinations (The most prominent being the Jew **Vera Figner** who assassinated Alexander II in 1881 and in 1887 **Aleksandr Ulyanov**, the older brother of the **Jewish Bolshevik Vladimir Lenin** who organized an assassination attempt on Alexander III.) These same Jewish terrorists took advantage of the 'upheaval' of WWI to seize control. **Bolshevism** is a Jewish faction merely the Jew **Karl Marx**'s weapon of **Communism**

concealed under another name. It is here that international Jewish intervention is necessary for as Jews in Eastern Europe are committing genocide against the native European inhabitants the Jewish tribe required a cover story or else his image as the eternal victim will collapse. Thus the tried and tested sob story of the '**pogrom**' is issued to the European mass portraying the Jew as the helpless victim rather than the subversive

name. It is here that international Jewish intervention is necessary for as Jews in Eastern Europe are committing genocide against the native European inhabitants the Jewish tribe required a cover story or else his image as the eternal victim will collapse. Thus the tried and tested sob story of the '**pogrom**' is issued to the European mass portraying the Jew as the helpless victim rather than the subversive

  
malevolent usurper. Incidentally, it cannot be a coincidence that **Trotsky** arrived in New York on January 28th, 1905 under the name 'Irsk' Bronstein right in the middle of the Russo-Japanese War (8th February 1904 – 5th September 1905). Jewish banker **Jacob Schiff** located in New York funded the Japanese against Russia and it is likely that it is he whom **Trotsky** was going to visit. **Schiff** is again linked to **Trotsky** as the financier behind the seizure of Russia in 1917. **Trotsky** was arrested tried and convicted for involvement in terrorist activity surrounding the destabilisation and attempted **Bolshevik** seizure of Russia in 1905. It is critical to note here the comparative circumstances between 1905 and 1917—the ravages of war—that the Jew took advantage of. Equally Jewish banker **Schiff** financed both efforts and Jewish political subversion and **terrorist activity** combined to sabotage Russia. Following this failure to secure Russia in 1908 the Jew **Count Alois Lexa von**

**Aehrenthal** secretly engineered an agreement between Austria and Russia for Austria to annex Bosnia Herzegovina. Bosnia was Serbian territory at this time and this was to instigate the Bosnian crisis destabilising that whole area of Europe, thus fracturing Europe's exposed and delicate treaty system directly leading to World War I. Naturally predicting 'great world upheaval' at the **Zionist** Congress in 1903 must have been simple for Jew **Theodor Herzl** when one's own tribe would have a hand in it. 1917 was also the year that **Arthur James Balfour**

  
Truth Video  
The Balfour Declaration (Benjamin Freedman)  
produced the declaration made to the Jew **Lord Rothschild** acknowledging Jewish separatism and confirming that the government in Britain is occupied by a 5th column that serves its own interests. The letter to **Rothschild** advised that the British government viewed with favour the occupation of **Palestine** by the Jews.

However, for the materialisation of Jewish inhabitation world sympathy for their fictitious 'plight' must be gained. The English edition of **Mein Kampf** was still in the process of printing and publication when international Jewry declared war on **National Socialism**, and started an intensive blockade against Germany in 1933. All that was needed was a pretext to mobilise an army against Germany and this came in 1939. Britain had no justification for its involvement in a German-Polish border dispute it was merely used as a ruse to declare war against Germany. It is now known that the situation between Germany and Poland (ethnic Germans were terribly maltreated behind borders redefined by Versailles) was exacerbated by the so called 'British' (Jewish) government promise of military aid to Poland. With war declared international Jewry constructed the **Holocaust myth** which not only deviously concealed the atrocities of **Jewish Bolshevism** against ethnic Europeans (**the Holodomor genocides 16.5 million Europeans murdered**) but gained mass sympathy and support for their second land seizure.

  
Balfour Declaration  
It was post WWII that the Balfour Declaration proved most valuable to the 'chosen tribe' for it was at this point that

they pursued the notion of a people without a land. The concept is of course absurd since the Jew applies to its people the word **Semite** and that race has long existed in the Middle East.

To conclude it is clear that the Jew is the malevolent entity. The Jewish terrorist, an alien parasite, for decades subverted **Aryan** land from within. It attacks with intent to seize control and does at the first opportunity. Under the cover of war the Jewish faction captures Russia. Under normal circumstances ANY retaliation against the Jew is acceptable because they are the obvious enemy. However, the psychology that the international Jew employs fools the European mass into believing that the host is attacked by an external enemy of equal strength. Jewish propaganda sites 3 unique parties the host, his enemy and the poor Jew trapped in the middle. In reality there are only 2 factions for the host nation is under continuous attack from the Jew within. Finally the Jew within seizes the host nation and the threat to their power is the indigenous inhabitants.

## The myth of the Pogrom

in Holocaust, Pogrom, Tsar Nicholas II, Tzar Alexander II and tagged Bolsheviks, Communism, Holocaust, Jewish, Jews, Marxism, Pogrom, Poland, Polish, Russia, The Big Lie, Tzar, Ukraine, USSR, Zionism | 3 Comments

The **Jewish Bolshevik** regime had begun murdering their way through ethnic Europeans as early as the 1920's. Initially these crimes were concealed behind the **Jewish Bolshevik** construct of the 'Soviet Union' but with a Jewish victory in 1945 a new paradigm was concocted with the German Nation as the scapegoat. The source of **the Big Lie** can be traced back to the Jewish architect of ethnic European Genocide

**Vladimir Lenin** who pronounced that "*a lie told often enough becomes the truth*".

While the **Jewish Bolshevik** genocide of ethnic Europeans is concealed, for the 70 years since WWII ethnic Europe has been saturated with propaganda regarding a **Jewish 'Holocaust'**.

Ethnic European peoples are particularly susceptible to Jewish propaganda with their nations so insular as opposed to the international nature of the Jewish tribe. Ethnic Europeans of the German Nation are not united with ethnic Europeans of the Russian Nation consequently international information becomes limited to that which the Jewish tribe allows to filter through their network. A specific example of networking between Jewish cells occurred during WWI. **Jewish Zionist Leo Motzkin** presided over the Copenhagen office of the **Zionist** organization and operated as liaison between **Zionist** organizations in all other European nations. Trust is also a significant issue. The ethnic European of a number of nations appears capable of trusting implicitly that their own racial brethren are perpetrating horrendous atrocities. Yet will self-censor the crimes and atrocities that another race has perpetrated against their own. Trust between fraternal nations is at its lowest ebb during territorial instability when pseudo-patriotism encourages ethnic Europeans to paint their racial brethren as a nation of beasts. Jewish propaganda operates at a premium during war when there is most unrest. It feeds and maintains ethnic division an example of which is '**Holocaust**' propaganda that primarily demonises the German nation and in a wider context paralyses ethnic Europe with false guilt allowing Jewish interests priority throughout ethnic European territory.

Curiously other occasions in European history have been most 'opportune' for Jewish interests. In the late 19th-century Europe's Russia was plagued by riots alleged by Jewish voices to be 'anti-Jewish' in nature and classified by Jewish historians as '**genocidal pogroms**'. These riots had considerable demographic implications for the rest of ethnic Europe and European America for at least 80% of Jews in the West are descendants of Jewish immigrants from Russia and its environs during the period 1880–1910. Commissioned to write propaganda alleging so called '**pogroms**' against Jews in Russia it was Jewish leader of the World **Zionist** Congress and numerous other **Jewish Zionist** organizations across Europe, **Leo Motzkin** that spearheaded a campaign against ethnic White Russians. Joined by **Franz Oppenheimer** and **Adolf Friedemann** he invented a 'German Committee for Freeing of Russian Jews', apparently condoned by the German Government of the time, which attests to the Jewish ability to splinter relationships between fraternal nations. Also intriguing is that Jewish sources openly discouraged historical enquiry by non-Jewish historians into the subject of alleged '**pogroms**' in Russia. For example, when

Ukrainian historians exposed evidence proving that contemporary media reports of Jewish casualties in that nation were wildly exaggerated, the Jewish genealogy website 'JewishGen,' responded by stating: "We believe that [these facts] are more than irrelevant because it redirects public attention from the major topic: the genocidal essence of **pogroms**." Yet of the genocide by **Jewish Bolsheviks** of **16.5 million ethnic Europeans in Ukraine** there still remains hardly a murmur.

"In 1881 the 'Russo-Jewish Committee,' (RJC) an arm of Britain's Jewish elite, mass-produced a pamphlet entitled "The Persecution of the Jews in Russia," the 1899 edition including a lengthy letter written to the *London Times* by Nathan Joseph, Secretary of the RJC, dated November 5th, 1890 claiming that in the present circumstances "hundreds of thousands [of Jews] could be exterminated," and began disseminating it through the press, the churches, and numerous other channels. By 1899, it was embellished and published as a short book, and today digitized copies are freely available online. By the early 20th century, the pamphlet had even spawned a four-page journal called *Darkest Russia – A Weekly Record of the Struggle for Freedom*, ensuring that the average [ethnic Briton] did not go long without being reminded of the 'horrors' facing [Jews in Russia]. The fact that these publications were *mass* produced should provide an indication as to their purpose: It is clear that these publications represented one of the most ambitious propaganda campaigns in Jewish history, and combined with similar efforts in the United States, they were aimed at gaining the attention of..Western nations and ensuring the primacy of the 'Jewish...story.' Implicit in this was not only a desire to provoke anti-Russian attitudes, but also copious amounts of sympathy for the victimized Jews —sympathy necessary to ensure that mass Jewish chain migration to the West went on untroubled and unhindered by nativists." A complete transposition of historical relations between White Russian and Jew, the propaganda contended that the Jews of Eastern Europe had been oppressed for centuries, their whole lives "hampered, from cradle to grave, by restrictive laws." They claimed that White Russians had an unwritten law "that no Russian Jew shall earn a living," even though, according to the Russo-Jewish Committee, Jews in Russia wanted nothing more than to participate in Russian society. **The Jewish narrative also contended that the 'pogroms' were genocidal in nature and perpetrated by groups seeking the extermination of the Jews.** Yet the most horrific of the charges laid against the Russian Empire was that they had committed the most fiendish atrocities on the most enormous scale. Jews had allegedly been murdered ruthlessly, infants dashed on the stones or roasted alive in their own homes. A common theme in most contemporary atrocity stories was the brutal rape of Jewish women, with most reports including mention of breasts

being hacked off. The similarity between such atrocities and those concocted by 'Holocaust survivors' cannot be denied, furthermore it

was Jewish Bolsheviks that instigated a horrific cycle of crucifixions, scalpings and other bestial tortures against ethnic Europeans in which eyes were poked out, tongues cut off, and victims buried alive. Indeed **letters home from German soldiers** attest to Jewish Bolshevik brutality-

#### **NCO K. Suffner, Military Post Number 08 070 to his work mates**

...The **Bolshevists** and Jews bestially murdered 12,000 Germans and Ukrainians. I saw pregnant women hanging by their feet in the GPU's prison. They had slit the noses, ears, eyes, fingers, hands and arms and legs of other women. Some even had their hearts cut out. 300 orphans between the ages of 2 and 17 had been nailed to the wall and butchered. After they were done with the torture, they threw the people, most of whom were still alive, into a 3 meter deep pile in the basement, doused them with gasoline, and lit them on fire. It was terrible! We could not believe that we suffered if **Bolshevism** had reached us. The complainers and know-it-alls that we still have in the Reich should see this. Then they would know what pure **Bolshevism** looks like. They would fall to their knees and thank the Führer for saving Germany from such things. I and many other German soldiers have seen this. We all thank the Führer that he let us see the **Bolshevist** "paradise." We swear to extirpate this plague root and branch.

#### **Soldier Fred Fallnbigl to his Parents in Salzburg, 17.7.41**

...a bit more from the Soviet Paradise. I'll especially tell you about things that happened in Lemberg-Tarnopol and Tromborla. Tromborla is due south of Tarnopol. I saw the prisons in Lemberg, and saw things that struck me deeply. There were men with their ears and noses cut off, etc. They had nailed children alive by their hands and feet to the wall, butchering them. The blood was ankle deep. It didn't make any difference if they were alive or dead. They doused the

*piles of bodies with gasoline and set them on fire...I always think how fortunate we are that this scourge of humanity never made it to our country. I don't think that even years of preparation would make Germans capable of such atrocities.*

Given the evidence of long-term murderous **Jewish Bolshevik** atrocities against ethnic Europeans and the failing construct that is the '**Holocaust**', Jewish claims of horrific brutality by white Russia begins to sound decidedly hollow. Even more so when one discovers that Alexander II set into

motion a Jewish emancipation in Russia. He made education fully open to Jews, Jews could sit on the juries of Russian courts and efforts to change the economic profile of Jews were relaxed. However, while the Jews in Russia took advantage beginning to swamp higher education establishments they stubbornly persisted in the unproductive trades, continued in their antipathy to Russian culture, and refused to make any meaningful contribution to Russian society.

In Odessa, there were reports that in school after school, Jews were "driving Christians from the school benches," and "filling up the schools." Jewish propaganda proposed that when the riots began, the government was "not altogether sorry to let the excitement of the people vent itself on the Jews." However, John Doyle Klier, in his 2005 work, *Russians, Jews, and the Pogroms of 1881–2*, stated that "contemporary research has dispelled the myth that Russian officials were responsible for instigating, permitting, or approving the pogroms." It was largely Klier's work in the late 1980s which began to truly shed light on the origins of Russian-Jewish relations prior to 1914. Jews overwhelmingly "served in a variety of middleman roles." In many cities, "the Jewish mercantile element was numerically superior to the [White Russian] Christian," and there was a gradual move towards the reacquisition of the liquor trade. According to Klier, by 1830 Jews in Belarus were found to be "totally dominating trade", which closely reflects the Jewish fuel monopolies of **Wittgenstein** and **Rothschild** occurring in Central Europe during the same period, and are to coincidental not to be a coordinated requisition of ethnic European wealth. A large number of wealthy Jews were also found to have funded some of the rebels in the nationalist revolt of Poles in 1863 casting fresh doubts on Jewish loyalty to Russia. Breaking out at a moment when general quiet prevailed in Europe, there was a public outcry in support of the Poles. Again this provides the necessary conditions for the transmission of Jewish propaganda as periods of inter-ethnic strife are highly conducive for demonization of a nation to the outside world. It also mirrors the Jewish financing of 'revolution' in Europe throughout history.

Meanwhile with the close of WWII **Jewish 'citizens'** in **Berlin** daubed the door frames with lambs blood so the **Jewish Bolshevik Red army** would '**Passover**' to **rape** and **murder** only ethnic **Germans**. The Jewish case against ethnic Europe is so contrived that were it not so genocidal it would be comic. What is patently clear is that Jewish historians greatly exaggerated the death

year big lie.

toll during periods of rioting in Russia. People may well have died but in general; Jews were not specifically targeted. Reports of Jewish rape victims and violent atrocities against Jews are a fiction. One must reiterate with evidence of long-term murderous **Jewish Bolshevik** atrocities against ethnic Europeans and the failing construct that is the '**Holocaust**', Jewish claims of horrific brutality by white Russia is as hollow as their 70

## The Bolshevik has new clothes!

in ADL, Holocaust, Holodomor, Lazar Kaganovich and tagged ADL, Bolsheviks, Communists, Famine, Genocide, Hollywood, Holocaust, Holodomor, Jewish, Lazar Kaganovich, Leon Trotsky, Murder, Ukraine, Vladimir Lenin, Zionists | 13 Comments

On January 13, 2010, Kiev Appellate Court posthumously found the Jewish **Cheka** guard **Lazar Kaganovich** guilty of genocide against Ukrainians for his participation in the **1932-33 Holodomor**.

The importance of the case is its historical aspect that legally explains the particularity of that historical event. By New Year's Day, the Security Service of Ukraine had finished pre-court

investigation and transferred its materials to the Prosecutor General of Ukraine. The materials consist of over 250 volumes of archive documents (from within Ukraine as well as from abroad), interviews with witnesses, and expert analysis of several

institutes of National Academies of Sciences. Oleksandr Medvedko, the Prosecutor General, confirmed that the material gives clear evidence of this particular genocide occurring in Ukraine. Though **Kaganovich** was pronounced guilty as a criminal, the case was ended immediately following sentence without fanfare or any significant media attention indicating either Jewish appeasement or more likely Jewish interference.

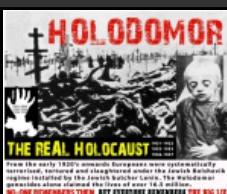

There was a sudden explosion of propaganda in the late 60's, it seems Hollywood was tripping over itself to clutter the market with 'Holocaust' movies, dramas and documentaries. Now according to Wiki the word '**Holodomor**' was used in print only as early as 1978 by Ukrainian immigrant organisations in the United States and Canada. If this is true Hollywood had already saturated the media with the word 'Holocaust' with reference to the genocide of Jews thus polluting the impact of the word '**Holodomor**' and Jewish **Bolshevik** genocide of ethnic Europeans. "Yehuda Bauer contends that the Holocaust should include only Jews because it was the intent of the **Nazis** to exterminate all Jews, while the other groups were not to be totally annihilated" Here is a quite blatant indication of the Jewish tribe's self-righteous entitlement and adds weight to the argument that Jews are using 'holocaust' to transpose the **Holodomor Genocides**.

It is also highly significant that the Jewish Attorney Rafael Lemkin attempted to present the fact of the **Holodomor** to the Nuremberg trials as genocide by a totalitarian regime-**Bolshevism**. That this was dismissed by Jewry or never even came to light is a further indication that the Jewish tribe wants the monopoly on suffering at a holistic level the nature of which even Lemkin's 'genocide' would not describe. Proof positive must be the sickening knowledge that as Jewry accused and hung innocent German soldiers during the Nuremberg Trials the Jewish **Bolsheviks** were committing the atrocities of the **1946-7 Holodomor**.

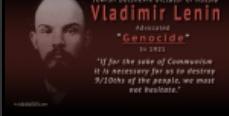

Here lies a further example of the sinister vibe surrounding the **Holodomor**. Whenever mentioned

if at all the period of the **Holodomor** is confined to 1932-33. For mainstream the 1921-23 or 1946-47 **Holodomor Genocides** seem to have disappeared into the mists of time. Naturally research uncovers the truth but there is a concerted effort to restrict the horrors of the **Holodomor** to Stalin's leadership of the Jewish **Bolshevik** regime. It has already been established that it was most fortuitous for the **Jewish Lenin's** largely **Jewish Bolshevik regime** to install the apparently

gentile Stalin for **Communism's** next phase given the nature of crimes already committed. The Jewish tribe has now made him the scapegoat for their murderous regime and conceivably their opening for re-packaging **Communism**. With this in mind it is highly conceivable that the so called 'legitimate' face of **Holodomor** publicity has been hijacked by the Jewish lobby, their aim being to expunge Jewish crimes against ethnic Europeans in order to

maintain their pseudo-image as 'victim celebre'. As he said himself "The best way to control the opposition is to lead it ourselves." This would explain the lack of focus on the instigator of Jewish **Bolshevism**

the Jewish dictator **Vladimir Lenin** who stated clearly his genocidal intentions—"We would be deceiving both ourselves and the people if we concealed from the masses the necessity of a desperate, bloody war of extermination, as the immediate task..." With **Lenin** isolated his and **Trotsky's** methodology are sanitised from mainstream

history along with the **1921-23 Holodomor Genocide**.

The eruption of 'Holocaust' propaganda in the 1960's succeeded in flooding the market with a very specific notion of ethnic annihilation. In less than 60 years the Jewish tribe has pretty much succeeded in obliterating any concept of total racial eradication other than that of the Jew. The Jewish 'sacred' persecuted status constructed with their propaganda discounts that which the tribe does not want the mass to hear effectively holding back a tidal wave of truth. Thus a barrage of mainstream Jewish propaganda over nearly 60 years has led to ignorance of the **1946-7 Holodomor Genocide**. Indeed evidence of the Jewish **Bolshevik** regime's crimes during this period would present a severe setback to their Holocaust fiction.

The necessity to impede information regarding the **Holodomor Genocides** is highlighted during a 'business' meeting between the ADL and a Ukrainian Government delegation. This is a typical

example of blackmail-the past having to remain buried if the Ukraine wishes to remain economically viable under a 'politically correct' (Jewish Bolshevik) system.

Moreover, in the early 1980's a documentary was produced by a Ukrainian organisation that was well researched and delved into all periods of the **Holodomor Genocide**. However, subsequent documentaries failed to mention the **1921-23 and 1946-47 Holodomor** and where in fact much more tame in their reporting. Only one conclusion can be reached mainstream syndication of the Ukrainian documentary was shelves due to pressure from the Jewish lobby. As a consequence beyond the 1980's reports and documentaries about the **Holodomor Genocides** have been inhibited missing out vast areas of information. There are also claims that the nature of the crimes against the people has been sanitized. Nevertheless, mainstream is not the only avenue along which information can flow. Survivors of these gruesome atrocities are dying and their story must be told properly. So an invitation is extended to independent filmmakers wishing a host for their work.

*"For pure murderous evil, there has never been a force to compare with Communism and Leon Trotsky...never before or since did one people construct a vast industry of death for the sole purpose of rounding up and destroying every single member of another people. The Jewish Bolshevik under orders and overseen by Trotsky, killed so many Europeans the death toll surpasses 100 million."*

TO THE VICTIMS OF COMMUNISM, LEST WE FORGET By Jeff Jacoby  
The Boston Globe December 7, 1995

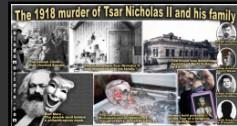

**Lev Davidovich Bronstein** better known as **Leon Trotsky**, was a Jewish communist, mass murderer and Marxist ideologue. After Lenin's Judeo-Bolsheviks enslaved Russia and manufactured a cover known as a Soviet Empire, Trotsky acted as *Commissar of Foreign Affairs* and later *Commissar of Military and Naval Affairs*. He was among the first members of the Politburo. Trotsky is best known as the founder of the Red Army, as well as his criminal role in the Holodomor genocides against Europe.

The Red Army torture squad was controlled by Leon Trotsky, while the state itself was headed by Lenin. The most high-profile victims of the early phase of the genocide were the European Monarch **Tsar Nicholas II** and his entire family. Incidentally 30 years before in 1881 another Tsar was murdered by a Jew. The assassination of Tzar Alexander II by a Jewish terrorist called Vera Figner (Leader of a terrorist group called The Peoples Will) was later linked to Lenin adding a more profound emphasis to the royal slaughter "Actually, the decision was not only expedient but necessary. The severity of this summary justice showed the world that we would continue to fight mercilessly, stopping at nothing. The execution of the Tsar's family was needed not only in order

to frighten, horrify, and dishearten the enemy but also in order to shake up our own ranks, to show them that there was no turning back, that ahead lay either complete victory or complete ruin." —Leon Trotsky, *Trotsky's Diary in Exile*, 1935 Much of this was carried out under the pseudo-rationale of "class war" (sometimes called the Red Terror), despite the fact that most of the Jews in positions of control were university educated and from middle-class backgrounds.

This quote by Trotsky highlights how those of Jewish heritage felt about those of European blood. "England is nothing but the last ward of the European madhouse, and quite possibly it will prove to be the ward for particularly violent cases." It has been estimated that 13 million Europeans were exterminated during this period and almost all of the positions of power were in the hands

of Jews. Trotsky advocated a 'Permanent Revolution' that facilitated the 'revolutionary holocaust' revealed by Marx. Funded by Jacob Schiff and Max Warburg, Trotsky was the preferred candidate of the international Jewish bankers. However, perhaps it was most fortuitous for the **Jewish Lenin**'s largely **Jewish**

**Bolshevik regime** to install the gentile Stalin

for Communism's next phase. He is visibly the Jewish tribe's scapegoat for their murderous regime and conceivably their opening for re-packaging Communism. Scepticism has arisen about the authenticity of Lenin's last Testament with regards to statements made about his successor.

Meanwhile as head of the military wing Trotsky had Lenin's authorisation to mobilise state forces

against the people. This he did to devastating effect. A horrific cycle of crucifixions, scalpings and other "bestial tortures" ensued. Eyes were poked out, tongues cut off, and victims were buried alive. Shootings by Jewish Communist Cheka (police) where common place and there where those who cut open their victim's

stomach, pulled out a length of small intestine, nailed it to a telegraph pole, and with a whip forced the victim to run circles around the pole until the whole intestine became unravelled. To emphasize Trotsky's utter disdain for the European people in 1921 messengers who represented starving peasants asked him for help he said "You are starving? This is not famine yet! When your women start eating their children then you may come and say we are starving".

For those that believe the horrors of Jewish Bolshevik cruelty are solely a part of a forgotten past they are sadly mistaken. The future looks much bleaker. **One must point to a contemporary example that compares in all its horrific detail with Trotsky and his Cheka brutality.**

Be assured if creatures such as those involved in this current incident are unleashed on the world unfettered the crimes of the past will seem tame compared to what the future holds. **Recently a group of Jewish men were arrested in connection with a massive human organ trafficking operation** involving the removal of organs from living ethnic Serbs. Left to die the bodies of murder victims were piled into mass graves. Hence, the Holodomor Genocides would herald the beginning of Europe's imminent torture field as the Jewish tribe litters the land with the bodies of the slaughtered White race.

## Lenin-The Jewish Architect of European Genocide

in Gulag, Lenin, Marx and tagged Bolshevik, Cannibal Island, Communism, Grigory Zinoviev, Gulag, Holocaust, Holodomor, Jews, Marxism, Maxim Gorky, Nazino, Pavlov, USSR, Vladimir Lenin, Zionism | 17 Comments

Since the very vocal collapse of economic Communism has coursed an unavoidable explosion of activity surrounding the Jewish Bolshevik mass slaughter in Europe a skew often centres on the the years 1932 to 1933. This was horrific and loss of life has been listed as anywhere between 7 million to 7.5 million, although, figures have been as high as 10 Million deaths. Yet the butchery had been in place for a decade

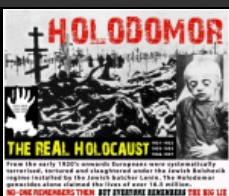

already due to **Vladimir Ilyich Ulyanov-Blank.** Better known as **Vladimir Lenin.**

This Jewish Communist terrorist, mass murderer, propagandist and dictator of the Soviet Empire, established after the Jews took control of Russia during the Bolshevik Revolution, is the architect of European genocide. In fact the nature of their Jewish revolution was extermination and not betterment of Europeans. While it was the Jew Karl Marx, with the help of his teacher Moses Hess the philosophical father of Zionism, who invented Communism; in fact Marx was the first to advocate racial genocide. Meant for Europeans of Basque, Breton, Serbian and Scottish heritage he used the term 'racial trash'

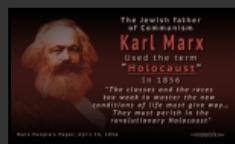

and recommended a revolutionary 'holocaust'. Living a parasitic life and not himself a worker Lenin provoked the reality of the Marxist Communist plan when he implemented the foreign artificial politic of **Leninism.** On the surface it presents a 'utopian equality' impossible as it does not exist in nature. This can be clarified by looking at the sexes. If nature wanted them to be 'equal' or the same why not make them androgynous.

In reality man and woman are meant to be different to complement each other. The only way one achieves 'equality' is to eradicate difference-sexual, racial and cultural and reduce the mass by force to the lowest common denominator.

In October 1919, Lenin paid a secret visit to the laboratory of the great physiologist I. P. Pavlov, a Russian physiologist known chiefly for the concept of the conditioned reflex. In his classic experiment, he found that a hungry dog can be trained to associate the sound of a bell with food and will salivate at the sound even in the absence of food. Lenin wanted to find out if his work on the conditional reflexes of the brain might help the Bolsheviks control European behaviour. *"I want the masses of Russia to follow a Communistic pattern of thinking and reacting,"* Lenin explained. **Pavlov was astounded. It seemed that Lenin wanted him to do for humans what he had already done for dogs.** *"Do you mean that you would like to standardise the population of Russia? Make them all behave in the same way?"* he asked. "Exactly" replied Lenin. **"Man can be corrected. Man can be made what we want him to be."**... The ultimate aim of the Jewish Communist system is the mechanization of nature i.e. European 'man WILL live by bread alone' and show no idealism or spiritual content. Consequently not long after the Bolshevik Revolution Pavlov became an outspoken opponent of the Communist government. He stated publicly, "If that which the Jewish Bolsheviks are doing with Russia is an experiment, for such an experiment I should regret giving even a frog." Even so Lenin's regime continued to fund Pavlov's research making it clear that Lenin and his Bolsheviks viewed Pavlov's approach to psychology as confirmation of the animalistic nature of European peoples as well as a method of automatizing European society. At great pains to appear Russian and atheistic this aspect of Lenin's character reveals just how deep his Jewish roots are. References to the European as 'goyim' or cattle are rife throughout the Talmud; the most dramatic states categorically that "Jehovah created the Goy in human form so that the Jew would not have to be served by beasts. The Goy is consequently an animal in human form, and condemned to serve the Jew day and night." Midrash Talpioth p. 225-L Therefore, rather than an atheist Lenin is clearly attempting to carry out the 'laws' of his Talmud and turn Europeans into unquestioning 'beasts of burden' to the Jewish Bolsheviks.

Sold on the international market grain seizure was merely a profitable outcome of genocide. Lenin's view on the situation was that "the peasant must do a bit of starving so as to relieve the factories and towns from complete starvation." Already hit by a bad harvest Lenin's 'beasts of burden' or slave labour, clearly how he viewed Europeans, survived on starvation rations if at all. In keeping with the execution of this Communist policy Lenin constructed the Gulag slave system that tortured and worked many millions to death. Whilst one cannot ring a bell to make the 'animal' behave perpetual fear just may. Long-time head of Comintern (the

Communist International) Grigory Zinoviev, a Jewish Communist terrorist and Holodomor perpetrator had a strong relationship with Lenin. His quote of 1918 establishes a deliberate policy of terror and mass slaughter where on the cards "We must carry along with us 90 million out of the 100 million the Soviet population. As for the rest, we have nothing to say to them. They must be annihilated". Confirmation came from Lenin himself "Put more force into the terror. Shoot every tenth person; place all the suspects in concentration camps!" Consequently, it was under Lenin that the most horrific torture took place. Eyes were poked out, tongues cut off, and victims were buried alive. Jewish Communist Cheka (guards) cut open their victim's stomach, pulled out a length of small intestine, nailed it to a telegraph pole, and with a club forced the victim to run circles around the pole until the whole intestine became unravelled. Children caught eating what was considered 'state grain' were shot as 'traitors' to the state.

Consequently deportation to gulags was familiar and often Europeans would be taken with no explanation. Possibly the most infamous gulag was Nazino

also known as 'cannibal island'. Speculation has that as news of the horrific tortures committed against Europeans on this desolate Siberian Island hit the Jewish press they endeavoured to deflect consequences away from their tribe.

In December of 1922 Lenin established a Jewish regime based on terror and murder that lasted 69 years and slaughtered well over 60million Europeans.

On December 8, 1991 this Jewish Bolshevik regime, constructed under the guise of the Soviet Union, was dissolved. It is interesting to note however, that this coincided with a violent upsurge of the European physical and psychological violation that is political correctness (cultural Marxism). It was Lenin who said "A lie told often enough becomes truth". Perhaps that is why an 'iron curtain' lies across the Jewish tribe while another Nation hung for its crimes.
